Vineyard Academy

2007-2008 record of Service Hours

Our Parents active assistance is the reason Vineyard has been able to offer a quality education to families each year. A commitment of 25 hours of volunteer service is required. It is each family's willingness to work on school projects that contribute to the success of our school and promotes a greater sense of community among families. If you have chosen to volunteer your time in lieu of the $250.00 fee, please record the project, the date and the total time spent on that activity.
